An adept Full Stack Developer with 3.5 years of intensive experience, specializing in creating robust, scalable, and high-performance applications. Skills span across HTML / CSS(SCSS), Javascript / Typescript, Java, Next.js, React.js, React Native, Node.js, Express, Springboot backed by an in-depth understanding of AWS functionalities. Detail-oriented team player with strong organizational skills, demonstrating the ability to handle multiple projects simultaneously with a high degree of accuracy.

Skills

- ◆ Languages :HTML / CSS(SCSS), Javascript / Typescript, Java, SQL
- ◆ Front End Frameworks: Next Js, React Js, React Native
- ◆ Back End Frameworks: Node Js, Express Js, Spring Boot
- ◆ Databases: MongoDB, PostgreSQL
- ◆ Cloud platforms: AWS

Professional Experience

◆ May 2023 - Full Stack Developer

Current

Gutesleben, Austria (Remote)

Mobile App (React Native)

- Upgraded React Native to latest version and implemented performance optimization techniques, utilizing tools such as Flashlight and react-native-fast-image.
- Enhanced app performance by effectively using a combination of memo and useCallback to reduce unnecessary re-renders.
- Implemented CI/CD pipelines for the app using Expo EAS builds, streamlining the deployment process and ensuring consistent delivery.

CMS (Next.js)

- Migrated the static React app served using Node.js to Next.js 13, leveraging server-side rendering (SSR) and static site generation (SSG) for

better performance.

- Improved the overall performance of the CMS, resulting in faster load times and better SEO capabilities.
- Optimized the architecture of the CMS, enhancing scalability and maintainability.

Backend (Node.js)

- Developed new APIs to support enhanced functionalities for both the CMS and the mobile app.
- Refactored existing large APIs into smaller, significantly improving performance and maintainability.
- Successfully migrated the entire system from Azure to AWS, utilizing services such as EC2, S3, Lambda, DocumentDB, and more, to enhance scalability and reliability.
